DETAILED ACTION

Response to Amendment

The Amendment filed on Mar. 4, 2009 has been entered. Claims 22 and 24 are cancelled per the Amendment filed.

Election/Restrictions

Claim 9 is allowable. The restriction requirement between the sub-species, as set forth in the Office action mailed on 7/26/05, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 11, directed to a non-elected sub-species is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 1-8, 14 and 16-21 directed to species non-elected without traverse. Accordingly, claims 1-8, 14 and 16-21 have been cancelled.

Therefore, claims 9-13, 15, 23 and 25 are now pending in the current application.

Allowable Subject Matter

Claims 9-13, 15, 23 and 25 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 9 and 15 (Amended): The closest prior art Yamanaka discloses in Figure 7 of a particle interceptor (element 9) comprising a recess, wherein the particle interceptor has a trapezoid sectional shape (Paragraph 0034). Although Yamanaka further discloses in another embodiment as shown in Figure 8 that the particle interceptor (element 9) can be in a rectangular shape, however, Yamanaka does not disclose a recess being formed in the rectangular shaped particle interceptor. Therefore, none of the prior arts either alone or in combination fairly teach or suggest that the particle interceptor having a recess formed therein has a rectangular cross sectional shape except for the at least one recess directly formed therein. Hence, claims 9 and 15 are deemed non-obvious and inventive over the prior arts and are allowed.

As to claims 10-13, 23 and 25: Since claims 10-13, 23 and 25 depend either directly or indirectly on the allowed claims 9 and 15, thus are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
